YMCA OF THE ROCKIES WILDLIFE SAFETY

Please respect all wildlife to ensure your safety and theirs.

- Give wildlife plenty of space and do not approach, especially when pets are present.
- Never feed wildlife, including birds and chipmunks. It is illegal and harmful to the animal.
- Do not leave food or trash out on counters or tables in cabins or in vehicles.
- Keep children and pets close by when walking or hiking in areas wildlife could be.
- Notify YMCA staff of all bear, mountain lion or wolf sightings on YMCA property immediately. Dial "0" on cabin phones.

BEAR SAFETY

Bears may be present on YMCA property at any time, day or night. Bears have been known to enter unoccupied guest cabins or unlocked vehicles. Please do your part to avoid having an uninvited guest in your cabin or vehicle, by following these tips:

- Remove trash from your cabin daily and place it in the bear-proof trash container located outside each cabin and ensure the lid is latched.
- Bird feeders, including hummingbird feeders are not allowed at cabins, as these attract bears.
- Ensure vehicle doors are locked and windows are up at all times.
- Close and lock all cabin windows at night, especially kitchen, dining room and bathroom windows.

ELK & MOOSE SAFETY

Elk and moose are wild animals and should not be approached. Though they may allow humans to get close to them, they will react unexpectedly to intrusion of their space, which can cause serious injuries to humans. Follow these tips to safely observe elk and moose:

- Keep a distance of at least 75 feet or two bus lengths between you and elk or moose.
- If an elk or moose notices you or raises its head to you, you are too close.
- Do not get between a bull elk/moose and his herd or a mother elk/moose and her calf.
- Do not become surrounded by a herd of elk and do not surround an elk; leave an obvious escape route.
- Be extra careful during spring calving season and fall mating season. Elk and moose are more aggressive during these times.

MOUNTAIN LION SAFETY

Mountain lions may be present on YMCA property. Follow these tips to ensure a safe coexistence between you and mountain lions.

- Walk and hike in groups. Mountain lions are most active at dawn and dusk.
- If you see a mountain lion, stay calm, move slowly and talk firmly to it. Stop and back away slowly, if you can do so safely.
- Running may stimulate a lion's instinct to chase and attack.
- Do all that you can to appear larger; raise your arms, open your jacket.
- Pick up children to protect them so they don't panic and run.
- If a mountain lion behaves aggressively, throw stones, tree branches, whatever you can grab without crouching down or turning your back. You want to convince the mountain lion you are not prey and that you may be a danger to the lion.
- If a mountain lion attacks you, fight back. Mountain lions have been driven away by prey that fights back. Remain standing or try to stand back up if you fall down.

WOLF SAFETY

While there have been no guest or staff sightings of wolves on Snow Mountain Ranch property, we are in contact with Colorado Parks and Wildlife to monitor the presence of wolves in Grand County and on our 5,100-acre Granby property. We always encourage our guests to practice safety when encountering wildlife of any kind – giving the animals plenty of space and respecting their environment. Though it is rare for a wolf to pose a threat to a human, it is better to be prepared. Follow these tips to ensure a safe coexistence between you and wolves.

- Make noise when you come and go at night.
- Most wolves will try to avoid a confrontation. Give them a way to escape.
- If you do encounter a wolf, maintain visual contact so you can see what it is doing and where it is.
- Talk calmly yet firmly to it and make enough eye contact so that it knows you have seen it. Most wolves will run away.
- If you have a dog with you, keep the dog away from the wolf.
- If there is shelter or a vehicle nearby, face the wolf and stand upright while backing away slowly. Running may stimulate a predatory instinct to chase and attack.
- If you cannot retreat, stand your ground, face the wolf and try to appear larger. For example, raise your arms, stand on a stump or a rock or open your jacket. Place obstacles you may have, like a bike, between you and the wolf.
- In the very unlikely event that a wolf attacks you, fight back. Remain standing, and try to get back up if you are knocked down.
